# Beaver Lake BLOCK Club spreads the joy to South African students

**Monday, May 24, 2010**

BLOCK Club students (Beaver Lake Outreach Community Kids) have been busy this year running Beaver Lake's annual humanitarian drive. More than 40 students played active roles in raising awareness of the problems facing children in South Africa. They planned and ran an all-school assembly at Beaver Lake, and gave a presentation at Clark Elementary, sharing the message of the importance of education and the positive impact students in Issaquah have made in rural schools in South Africa.

Clark, Challenger and Skyline all participated in the outreach this year by holding their own school supply drives, and together with Beaver Lake they have collected over 800 boxes of school supplies, books, sports equipment, shoes and toys, which they will load onto a shipping container and send to South Africa at the end of May.

BLOCK students were also key presenters at [Generation Joy's](#) 2nd annual Celebration and Silent Auction on May 1st, where their enthusiasm and spirit helped to raise over \$20,000 to keep on spreading the Joy!
